**INTERSTATE 89 LEDGE REMOVAL PROJECT TO BEGIN IN SUTTON**  
***DAILY NORTHBOUND LANE RESTRICTIONS FOR FOUR WEEKS***

The New Hampshire Department of Transportation announces work is expected to get underway the week of May 30, 2005 on ledge removal along the northbound lanes of Interstate 89 in Sutton. This project is located about 1,500 feet south of Exit 10.

The work will involve clearing, scaling and blasting of ledge, primarily along the median side of the northbound lanes, although some work is also planned for the shoulder side of the interstate. It's expected to take up to four weeks to complete and will involve daily lane restrictions or closures.

Also included in the project are guardrail and drainage improvements and paving. Weaver Brothers, Inc. of Bow, New Hampshire is the general contractor for the \$1.6 million project, which has a final completion date of September 30, 2005.
